@**DEVI** Type Writting Kunnathur.
Certify Number **GTE0687396**

PROFILE SUMMARY

Passionate **MERN** developer with a strong foundation in programming principles. Skilled in JavaScript, React.js, and Node.js, with a flair for creating responsive and modern websites. Eager to contribute to Full-stack web developing projects and dedicated to delivering efficient and reliable web applications.

PROJECT

Project - 1
Zodia Social Media Application | live Demo **|** code
(React JS | CSS | Node JS | MongoDB)

- Developed a social media app's website, introducing refined **follow** features and **real-time chat** functionality for enriched user interaction.
- Utilized modern technologies to create an efficient and responsive application.
- Successfully implemented real-time chat functionality using **WebSocket** technology (**Socket.io**) and stored chat data in **MongoDB**.

Project - 2
Announcement Announcer | code
(React Native | CSS | Node JS | MongoDB)

- Developed an innovative **Android app** within EASC college, enabling higher authorities to send information to student email addresses.
- **Node Mailer** was successfully integrated to streamline email announcements.
- Ensured **100%** reliability and security, transmitting announcements to college students and staff within **5 to 8 seconds**.

Project - 3
E-Commerce | live demo **|** code
(React JS | CSS | Node JS | MongoDB)

- Developed an e-commerce website with advanced **cart** functionality and **trial payment** methods.
- Designed a responsive and visually appealing interface for seamless navigation.
- Ensured **100%** security for payment transactions and user details on the e-commerce platform.

ACHIEVEMENT

Front End Mentor | profile
- Earned **2500+** points, solved solutions for responsive sites, and achieved the **weekly batch**.
